

Provision for International Students Report

School Name: Tauranga Girls' College

Profile Number: 122

Location: Tauranga

Background

The Education Review Office reviews schools that are signatories to the *Education (Pastoral Care of Tertiary and International Learners) Code of Practice 2021* established under section 534 of the Education and Training Act 2020.

Findings

International students at Tauranga Girls' College are very well resourced and are supported by a team of experienced staff. In place are strong systems and self-review processes to support the nurture and care of students including their academic and social aspirations.

At the time of this review there were 12 international students attending the school. This represents a significant reduction in international student numbers that the school has had in previous years and is a result of the COVID-19 pandemic. Those students unable to travel to their home country and who remained in the care of Tauranga Girls' College, have a comprehensive range of programmes and activities to support their wellbeing. This includes the support of well-equipped homestay families.

International students are integrated in school life and engage in school-based and community activities. They make good progress towards their academic and social goals and have opportunities to be part of the student leadership team. International students are an integral part of the school and contribute to the realisation of the College's charter and annual plan goals in relation to diversity and inclusion.
